Our top quality couverture is a product line unmatched in taste, texture and aroma. That's why we've named them after the goddesses of Night (NOX), Earth (GAIA) and Dawn (EOS). Their influence and power helped shape Greek and Roman mythology, just the way our couverture shapes the ultimate chocolate experience.

The gem line features six couvertures: ONYX, GARNET, RUBY, AMBER, TOPAZ, and OPAL. The sophistication and beauty of these gems as well as their cut and color illustrate the level of care and pride we've taken in the creation of every couverture.

Completing our collection is BROCADE, VELVET, SATIN and CHIFFON in our tapestry line. We've named them after fabrics because, like our couvertures, they can be used to create genuine works of art. Rich in taste, these couvertures bring a whole new meaning to workability and ease of use.
